

RGS Energy's POWERHOUSE™ 3.0 Solar Shingles Wins Best Energy Efficient Product at The NAHB International Builders' Show®

DENVER, CO, February 25, 2019 – RGS Energy (OTCQX: RGSE), the exclusive worldwide manufacturer of the visually stunning POWERHOUSE™ Solar Shingle System, won “Best Energy Efficient Product” award for POWERHOUSE™ at The National Association of Home Builders’ (NAHB) 7th Annual Best of IBS Awards during the NAHB International Builders’ Show® (IBS) in Las Vegas.

“This award further validates our game-changing POWERHOUSE™ solar shingle,” said Dennis Lacey, CEO of RGS Energy. “POWERHOUSE™ 3.0 was designed to offer our customers a better-looking solar product at an attractive price.”

[The Best of IBS Awards](#) highlight the best new products in home building. Over 300 entries in nine categories were received. In selecting the Best of IBS finalists and winners, 31 industry and media judges considered the following criteria:

- **Innovation:** The product is either new (this type of product has never been offered) or has been significantly changed and would be deemed a game-changer in its product class.
- **Functionality:** The product will be well-used by the builder in/for their business or the consumer in their daily lives.
- **Good Design & Builder/Consumer Friendly:** The product will help the builder solve a specific issue, help them add to their bottom line and/or helps solve a specific problem for the consumer/will be a product that a consumer is excited about having in their home.

RGS Energy also finished as one of seven finalists for “Best Green Building Product.”

RGS Energy is actively seeking homebuilders interested in offering POWERHOUSE™ as part of their new communities.
