

RGS Energy to Begin Trading on OTCQX Best Market

DENVER, CO, February 08, 2019 – RGS Energy (NASDAQ: RGSE), the exclusive worldwide manufacturer of the visually stunning POWERHOUSE™ Solar Shingle System, announced that it will move trading of the company's Class A common stock to the OTCQX® from The Nasdaq Capital Market effective February 15, 2019.

As previously disclosed in the company's news releases and filings with the Securities and Exchange Commission (SEC), the company was not in compliance with Nasdaq's \$1.00 per share minimum bid price requirement for maintaining its listing on The Nasdaq Capital Market. RGS submitted a plan, allowing time for the commercialization of POWERHOUSE™, with Nasdaq including a request for an extension of time to remain listed on The Nasdaq Capital Market for an additional 180 days.

Nasdaq advised RGS Energy on February 6, 2019, that an extension would only be considered if the company would commit to effect a reverse stock split, if necessary, to meet the \$1.00 minimum bid price requirement. The company believes that, under the circumstances, a reverse stock split is not in the best interest of its shareholders and will move trading of the company's Class A common stock to the OTCQX®, the highest market tier operated by OTC Markets Group. Quotes and related company information will be available at www.otcm Markets.com.

"We just began commercialization of POWERHOUSE™ and believe that in time our results will support a higher stock price," said Dennis Lacey, RGS Energy's CEO. "Further, previous reverse stock splits by RGS resulted in the stock trading down to pre-split levels. That coupled with our belief that POWERHOUSE™ will over time be a game changing product for us, led us to move trading of our Class A common stock to the highest market tier for OTC Markets Group."

RGS remains a public reporting company and will retain the ticker symbol "RGSE." RGS plans to continue to make all required SEC filings, including those on Forms 10-K, 10-Q and 8-K, and will remain subject to all SEC rules and regulations applicable to reporting companies under the Exchange Act. The company plans to maintain an independent board of directors with an independent Audit Committee and to provide annual financial statements audited by a Public Company Accounting Oversight Board auditor and unaudited interim financial reports prepared in accordance with U.S. generally accepted accounting principles or GAAP.
